Efficiency Overhaul Package

A customized plan to recognize and eliminate your organization's most critical resource wasters

“Chaos scales, but not in a good way!”

Promoting efficient practices across your organization makes the best use of your resources today and positions you for future growth.

If your nonprofit has experienced growth over the years, it might be difficult to recognize which internal procedures and practices have not kept up with the fast-paced needs of today's nonprofit workplace.

The result is wasted time and effort and frustrated employees who are very busy but not necessarily productive.

Take advantage of my 30 years of nonprofit leadership and operations experience! Using the results from my **Efficiency Overhaul Assessment**[®] and interviews with your key employees, I'm able to bring 'fresh eyes' to your situation and make actionable recommendations to reduce bottlenecks and streamline your operations.

Assess. Adjust. Accelerate.

The standard Efficiency Overhaul Package includes:

Phase I - \$1450

- Access to Eastlake Solution's **Efficiency Overhaul Assessment**[®] for up to 10 key employees, including scoring and the analysis of your critical resource wasters
- Four-hours of focused interviews and identification of **priority areas** for improvement
- A **customized plan** highlighting your organization's Efficiency Overhaul results, including specific recommendations your teams can implement themselves for immediate results

Phase II (optional) - \$580

- Implementation guidance for your customized plan (up to four hours, on-site or virtual)
- Ongoing guidance related to your customized plan is available at an hourly rate plus travel expenses
